# SENG 310 Assignment 1:

# Establishing Groups and Topic

Do this assignment with your project group. Submit the final assignment **as a PDF file uploaded to conneX** in the Assignment 1 area.

In this assignment you will be identifying who your team is and what you plan to develop in your term project. This assignment also requires you to begin to plan your user interviews and allows you to get feedback from the TA on your project plan.

The project plan document you submit should include:

- Your team's name.
- Full names of each of your group members.
- A general description of the application you plan to develop.
- A short, one-paragraph description of the users you plan to interview (no names).
- At least 10 sample questions you plan to ask.
- The consent form you plan to use. You should modify the sample consent form attached to this assignment.

The submission of the proposal is to allow you to get feedback from your TA. After we grade your proposal and you have made suggested changes, you may proceed to Assignment 2 and conduct interviews.

**What to hand in:**

Submit via Assignment 1 link on conneX. Only **ONE** submission per group please.

- Your project plan document

**General comments about the assignment:**

- Poorly written documents will be penalized.
